

# Hamdala Tamirat

## Full Stack Developer

**Location:** Ethiopia | **Mobile:** (+251) 931655607 | **Email:** [hetcode466@gmail.com](mailto:hetcode466@gmail.com) | **Portflio** <https://tamehamde.com/>

### Summary

- Over **3+** years of learning experience in developing and designing user friendly, cross browser complaint web sites, mobile applications, desktop software and User Interface (UI) applications using HTML5, CSS3, Bootstrap, java, python, flutter, JavaScript, jQuery, Node.js.
- Extensively used Core Java such as Multi-Threading, Exceptions, and Collections.
- Designed, implemented and tested the Spring Domain Model for the services using Core Java.
- Proficient in developing Single Page Applications (SPA) using React.JS and NodeJS.
- Extensively worked with Version Control Systems like Perforce, GIT and Github
- Good practice with the Node.JS application in building the minified versions.
- Experienced in Agile Methodologies and SCRUM Process.
- Experience in database development skills like MySQL
- Worked in providing solutions for deployed Java products.
- Experienced in using version control tools GIT to keep track of development stages and deployment stage.
- Used the best practices of SDLC as well as Agile/Scrum, methodologies.
- Hands on experience in using React.JS with ES6 features to develop reusable components and using Redux to enable predictable state change and improve maintainability of the code.
- Excellent interpersonal abilities, Communication skills, time management and team skills.

### Skills

<b>Programming Language:</b>	JavaScript
<b>Front-End:</b>	HTML5, XHTML CSS, jQuery, XML, JSX
<b>Back-End:</b>	Node.js, Java, Java, PHP, Express.JS, WordPress
<b>Database:</b>	MySQL, MongoDB
<b>Frame Work:</b>	React.js, Redux, Bootstrap
<b>Version Control:</b>	Git, GitHub, NPM
<b>Operating System:</b>	Window, Linux, Mac
<b>Methodologies:</b>	Agile, Scrum, Waterfall
<b>Other:</b>	Word, Excel, PowerPoint, REST API, Adobe, VS Code

# Education

## **Evangadi Bootcamp**

Full stack web development

**Mar 2022**

## **Wachemo University**

BSc. Software Engineering

**Mar 2019-Current**

### **Responsibilities:**

---

- Responsible for SDLC process in gathering requirements, system analysis, design, development, testing and deployment.
- Extensive experience in creating style guides, best practices and setting UI standards for enterprise/consumer applications using Bootstrap.
- Developed single page application for the web pages and mobile application using Node JS, Bootstrap, HTML5, CSS3
- Used Postman API to get convenient, visual display of query results.
- Improved infrastructure design and approaches of different projects in the cloud platform Confidential Web Services (AWS) by configuring the Security Groups, Elastic IP's and storage on S3 Buckets.
- Implement the JavaScript frameworks such as Node.JS for React.js Framework
- Documented the entire project, which contains detail description of all the functionalities.
- Worked through cross browser compatibility issues with layout and styles for all new CSS that was implemented.
- Utilized the Node.js to do the relevant backend Java
- Used Grunt for task automation and GIT for version control.
- HTML5 and CSS3 latest tags are used to design the web pages and HTML local storage web applications are used to store data.
- Working with Bootstrap twitter framework to Design single page application.
- Styling pages with CSS3.0 and developed JavaScript for user interfaces.
- Used Bootstrap framework and media queries for developing customizable and responsive web design for compatibility with different platforms and screen sizes.
- Developed Web API using Node.JS and hosted on multiple load balanced API instances.
- Well experienced in developing multi-tenant applications using latest technologies and frameworks such as HTML5, CSS3, Bootstrap, REST Web API, Node JS
- Convert UI/UX design to highly scalable and responsive web application with cross-browser compatibility

### **CORE COMPETENCIES**

---

Creative Problem Solving | Communications | Business Operations | Quality Assurance | Project Management | Enterprise Web Application Development | Web Layout Design | Stored Procedures | Software # Handled  
comprehensive website development including collaborating with a talented team to better streamline operations.

### **Project**

---

- Built [Amazon-clone](#) app using react which is an e-commerce store with full functionality, front and back end.
- Built [Netflix-clone](#) using react which is an online video streaming services.
- Chat app using flutter two side communication chatstream
- Biometric Attendance System using java
- Music Player using Java GUI
- Built [Zoom-clone](#) using react which is an online video streaming services and chat.
- Recreated [Apple's](#) current website using React - created React components for various pages and sections - Integrated Apple's YouTube channel with the website using REST API.
